

Replaces up to a 60-watt
incandescent bulb and
USES ONLY 7 WATTS!

What are they... and why should you purchase them?

FIRST® Green e-watt saver light bulbs are the newest energy-saving technology for the home. Unlike energy-saving fluorescent bulbs, these bulbs feature LED technology.

- *Environmentally friendly (NO mercury, NO lead, NO special disposal requirements)*
- *Replaces up to a 60-watt incandescent bulb using only 7 watts (88 percent energy savings)*
- *Lasts 9.1 years (when used 3 hours/day)*
- *Instant ON & OFF*
- *LED technology by Cree (U.S.-based, global leader in LED lighting)*
- *Similar size and form of standard incandescent bulbs*

Most importantly, your purchase helps to support the activities of your local FIRST® robotics teams comprised of high school-aged youth from your area. The hundreds of local FIRST Participants, Coaches, Mentors, Volunteers, and Sponsors **THANK YOU FOR YOUR SUPPORT!**

What's FIRST® ?

FIRST® is a not-for-profit organization that designs fun, motivational programs to help young people aged 6-18 discover and develop a passion for science, technology, engineering, and math (STEM) through challenging robotics competitions. The mission of FIRST is to inspire youth to be the science and technology leaders of tomorrow by engaging them in exciting mentor-based programs that build their skills, inspire innovation, and foster well-rounded life capabilities including self-confidence, communication, and leadership. Over 250,000 students and 90,000 adult Mentors and Volunteers from more than 50 countries participate annually. FIRST students qualify for \$14 million in college scholarships. All competitions culminate at the annual FIRST Championship.

Supported through the generosity of over 3,500 corporations and organizations worldwide and individuals LIKE YOU! Thank you!
